201.00 - EDUCATIONAL PROGRAMS

Cowley College provides comprehensive post high school educational programs, workforce training and community education.

Students are provided advisement and enrollment services to assist them in formulating educational and career goals. Specified plans of study outline the courses students need for transfer towards Baccalaureate degree programs or for Associate degree or Vocational certificate completion.

Individuals who have successfully completed an accredited high school program are regularly admitted for college credit programs. Certain college credit programs are available to high school students through an agreement with the school district.

The College also provides credit and non-credit training and other enrichment activities to individuals, businesses, and community organizations through the workforce and community education programs.
